

MIGRATE

MIniaturized Gas flow for Applications with enhanced Thermal Effects

A Marie-Curie-ITN within H2020

MIGRATE Deliverable D 4.1. Website Creation

First actions taken until December 4, 2015

prepared up to July 28, 2016

from an extract of the minutes of the project's kick-off meeting from December 8, 2015

the publishing report of KIT webmaster, from December 4, 2015

and an extract from the first progress report from July 28, 2016

by

Dr. Martin Knapp, KIT, MIGRATE Administrative Coordinator (AC)

This document is to shortly confirm the setting-up and publishing of the MIGRATE project website within the first month of the project run-time as foreseen within the work package 4 'Management, Outreach, Dissemination & Communication. It contains extracts of the minutes from the project's kick-off meeting, the confirmation of the first launch of the website by KIT webmaster as well as extracts from the first progress report of the network.

During the kick-off meeting the website was dealt on in the following paragraphs:

Setting-up and maintenance of the webpages is to serve as central activity for the 'Outreach, Dissemination & Communication' sub-task of WP4. Hereby, aim, scope and research topics of MIGRATE as well as participants and organizational structure are to be conveyed. Also they serve for sharing details of events (summer schools, workshops, meetings) and publish documentaries of respective contents and progress reports. Another main purpose is the presentation of vacancies for the ESR positions (described in the following) besides obligatory official publication sites of the EU (see guidelines). The website is already put online and will continuously be updated with contents to be delivered by the consortium. More information clarifying the process of updating to come will be sent by the coordination. Martin Knapp concluded this part of the presentation on administrative tasks and announced to be in Eindhoven still tomorrow to be able to answer upcoming questions.

and

Irina Martin-Graur was expecting about 10 students to come, but that the summer school should also be made attractive for other students that will be attracted and also pay part of the budget via participation fees. Thus, the contents of the summer school are to be rapidly discussed the fixed contents then to be put on the website to be able to advertise.

and

All project members should send information on upcoming public activities to the coordination to allow documentary and dissemination e.g. via the website.

Ever since the successful launch of the MIGRATE website, it has been amended and updated on occasion, especially for spreading knowledge on the network, for advertising the open ESR positions as well as for inviting participants to the first summer event held in June/July 2016. Each one of these changes was documented by saving of the respective publishing report and can be shown upon request.

Extract of the first progress report with regard to website activities

Up to December 4, 2015, the main structure and major contents of the MIGRATE Website was published, and is, since then continuously under improvement. Besides dissemination of knowledge on the projects topics, it has been used for advertising the ESR positions, announcing dates and contents of meetings and events. Therefore, a continuous updating has been performed since the launch.

Karlsruhe, July 28, 2016, on behalf of the MIGRATE Network and Coordination

28.07.2016

Dr. Martin Knapp
Administrative Coordinator
